

# RollerSafety 250

DURABILITY AND EASY DEPLOYMENT

RollerSafety 250 combines the heavy duty construction of .055 gauge steel and solid cast iron base with the convenience of a roller base for fast, easy deployment. These features make the RollerSafety ideal for tough working environments where barriers have to be set up and taken down regularly. The post unscrews from the base so this product can be quickly broken down and stored flat when not in use.

Heavy duty .055 gauge steel

Cast iron base with replaceable anti scuff cover

## SPECIFICATIONS
